

Making a pop-up card is always fun. This work sheet shows you how to make a super simple pop-up mechanism – using the “paper bauble” technique. Paper baubles are easy and fun for children to make and can be used for this pop up card. This card focusses on creating an egg shaped 3d bauble and combines it with some cute Easter bunny outlines.

This makes for a fun seasonal activity to help fill any lesson plan gaps. It also allows students to take home some lovely Easter cards to send to family and friends.

Objectives

- Develop fine motor skills & accuracy
- Reading skills & following instructions
- Looking at symmetry & shapes
- Seasonal fun

Materials

- Card stock (A5 sheet folded in half)
- Paper in desired colors
- Pens for decorating
- Scissors
- Glue stick

The printable comes in 3 options:

- A template to print on white paper and the students to cut out their shapes from colored paper – 2 sets of templates for easy sharing among students
- A set of shapes that students can decorate themselves – no additional paper needed. This has one set per sheet
- A bonus set of full color eggs and bunny shapes

How to make a Pop Up Easter Egg & Bunny Card

Draw your own or use the templates provide to create your basic shapes for this card. We printed on white paper and use the egg shape to then cut out 4 colored patterned paper eggs!

You will need:

- 4 eggs
- 1 round head
- 2 ears
- 2 round paws
- 2 oblong feet

Fold your four egg shapes carefully in half. Make sure you find the centre, so they are neatly folded.

Add glue to one side of one of the fold egg shapes.

Place the second egg shape on top of the first egg where the glue is.

Add glue to this second egg and stack the third shape and repeat with the third and fourth egg.

You should now have a stack of eggs that are folded in half.

When you open the stack you have you 3d egg fan shape.

Arrange all the paper bunny shapes behind the egg. And glue in place.

- The ears behind the head. The head behind the egg.
- The feet behind the egg (the paws will come late)

Fold the bunny and egg in half and add glue to one side.

Align the centre fold of the bunny with the fold of your card and glue in place.

Add glue to the exposed side.

Close the card and it will hold glue the side perfectly in place.

Open up the card and fold down the bunny ear to make your "floppy ear" (and for it to fit inside the card too!). Repeat for the other ear!

Glue your paws in place. They go "on top" of the egg, so that it looks like the bunny is holding the egg.

Draw your bunny's face – eyes, nose, whiskers if you wish.

Add details to the paws and feet.

Finished!
